ORIENTAL Telegram Agency.

57—CALLE SAN MARTIN—57

(Opposite the Bolsa)

Names and Addresses, if registered through these Agencies, are counted and charged as ONE word only. No charge is made for this registration.

The charge for the first word also covers cost of transmission by Telegraph of the place from which the Message is sent, date, and time of despatch.

A special feature of these agencies consists in telegraphing the number of words in each despatch.

It will greatly facilitate business if the registered number is placed upon Messages before being handed in for transmission.

Extracts from the Oriental Telegram Company's Rules.

Rule 3.—Implicit secrecy is to be observed with regard to Messages, not only as to their content, but not information is to be given as to whether any person or firm has or has not sent a message.

Rule 4.—Complaints of error, delay, or of any other nature, should be made by the person forwarding the message. The Receiving Agent cannot give any information on the subject, and should be very careful not to speculate upon the causes of delays, &c.

Rule 9.—Every message must be signed by the sender.

Rule 10.—All messages are to be prepaid to their destination.

Rule 34.—In the event of doubt arising as to the correctness of a message, the Cable Company may be prevailed upon to repeat it; but the Rules of the Cable Company must be regarded in this matter, and the message cannot be rectified at the expense of the Oriental Agency.

The system adopted exclusively by these Companies insures a degree of accuracy in the transmission of telegrams acknowledged by the chief Cable Companies never to have been attained by any other agency.

NOTICE IS HEREBY GIVEN, that Messrs. Lamas and Co. are definitly installed by the Head Office, London, as Agents of the above Telegraphic Agency, in the River Plate.

Merchants, bankers and others are invited to register their names without delay. Registration gratis, after which the names and addresses of firms and their correspondents count as ONE word only.

The Registration Book is now opened, and we earnestly request those intending to register to come early, so that the lists may be ready for the first steamer.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872, the Mortgage Bank will be open to the public.

Secretary.

NEW ADVERTISEMENTS

A LIFE SAVED!—The lame walk, while a continent sings with the recent cure of scrofula and other consuming ulcerous diseases, wrought by Bristol's Sarsaparilla; it is well known that its effects in inflammatory and chronic rheumatism are no less marvelous. M. S. L. Moore, of Hartford, has placed on record the fact, that sixteen bottles of this superlative remedy cured him of agonising rheumatism, to which he had been subject for eighteen years. He says, moreover, that while in New York, where the preparation was recommended to him, he called upon "twenty individuals of the first respectability who had been cured by it," and amongst others upon Mr. Thomas Horan, whose life had been saved from a combined attack of scrofula and rheumatism, by its balsamic and restorative action. The uric or lithic acid in the blood, which is now generally believed to be the cause of rheumatic and gouty affections, is more surely purged from the system by using Bristol's Pills at the same time with the Sarsaparilla.

EUROPE.

MOST IMPORTANT.

Per American Agency.

Paris Sept. 14th.

Serious news. The Minister of Foreign Affairs has just received a note from the German Government couched in the most energetic terms and complaining of the aid lent to the Carlists on the French frontier.

Guizot is dead.

Elections in department of Maine and Loire resulted in favour of the Republicans.

Bazaine escape trial going on; interrogatory will begin to-morrow.

London, 15th.

A solution of the Schleswig Question is despaired of. It is said that the Copenhagen Government has resolved to expel all Prussian subjects from Denmark, and it is more than probable that this measure will lead to war.

Denmark continues to prepare actively for war, and has commenced to garrison her fortresses.

Russian explanations about Asia expected. Great reserve about the Circassian affair. Those best informed say it will end amicably.

Turin 14th.

Another fight on the 10th between the troops and Sicilian brigands, their Chief Cole and 5 men being killed. The prisoners were taken to Palermo on the 12th and two of them summarily disposed of.

The rumour of a general rising is assuming serious proportions; the Prefect of Palermo says it is the work of the Internationalists.

A subscription for a grand fete to the Emperor of Germany, on his approaching visit, is on foot.

Great preparations for the elections. The clergy will not abandon the urns in spite of the Pope's recommendation.

Garibaldi very ill. Report runs to-day that he is dead.

Madrid 15th.

Carlists have recived more men and arms on the frontier.

The German and Austrian Ambassadors, after being received officially by Serrano, were the object of popular manifestations. Several local deputations felicitated them. The populace accompanied them shouting Hurrah for Germany, Austria and Bismarck!!

The German Ambassador Harzfeld, in reply to these demonstrations, said that Germany had resolved to lend the Spanish Government "todo su apoyo!!"

German squadron at Santander sailed for Santoña.

The North Army moved on 13th, and was successful in an encounter with the Carlists. It is said a grand plan of campaign will shortly be carried out.

General Moriones has resigned because he was not named Commander-in-Chief. Minister of War working hard. New regiments of conscripts are receiving arms and being drilled.

Primo de Rivero has arrived to assume the post of Captain General of Madrid.

RAILWAY LOANS.

Nothing has more surprized the River Plate public than the sudden difficulties and delays that have sprung up in London respecting new River Plate railways, and even Railway Debenture loans. When Mr. Huergo left here we all looked forward to the immediate negotiation of his Western Railway Loan, and on the most favourable terms; but months have passed yet nothing has been done, and although there is a reasonable probability that the loan will be done next month, or in November, still the figure at which it will be launched will probably be much under what the commissioner anticipated when he bid adieu to his friends on the mole head.

These constant hitches and delays in the way of bona fide enterprises have imbued the River Plate public with the idea that our credit is at a discount in the London market; and although from the very quotations of the London Stock Exchange list Argentines can see that things are not what they were, still we are far from sharing in their apprehensions of a declining national reputation.

The check on the new River Plate railways has come from a far different quarter. Even in England railway properties have not given for the last few years what the shareholders had expected, and in the United States, where the most stupendous capitals have been sunk, the number of defaulting companies is so great, and the amount of British capital shut up in these companies so large, that there is a very strong prejudice against new railways of any description, and in what country soever.

The *Bullionist*, a leading London financial journal, in its issue of Aug. 15th, 1874, received by the last mail, gives the following list of defaulting railways in America. We admit that this extraordinary list has taken us much by surprise, but its publication here may be useful at the moment to save Congress from wasting any more of its now rather limited time in discussing new railways or new Government guarantees, Government concessions with clauses of $100,000 fuertes deposits, and such like. The time has passed for grinding down an unfortunate railway concessionaire to terms which London capitalists will not accept. This ominous list will also rescue the railway men from the Fiscal, anent the question of legal domicile and other such nonsense. We do hope our colleagues will publish the list in Spanish, so as to show our legislators that it Argentine railway schemes are delayed in London, it is because the greatest railway nation in the world is at the moment such a defaulter:—

"A list of the defaulting railway companies of the United States has been compiled and published by the *New York Bulletin*, showing that the capital sum on which the payment of interest has been suspended is equal to about sixty-three millions sterling—about five-sixths of the defaults having occurred since the panic of September last. A large proportion of the bonds are believed to be held in Germany; the amount in this country, although considerable, having been restricted by the caution of the public. In most instances, it is stated, measures are in progress for an adjustment, and in several an order of sale has been received from the courts in the interests of the bondholders; but in every case the proceedings are very slow, which is a great misfortune for all parties concerned, as the properties must suffer deterioration while held in their present suspense. Very many of the roads are incomplete, and cannot possibly earn interest on their bonded debt without further outlay. Annexed is the list, and the amount shown to be in default constitutes about 18 per cent. of the entire bonded mortgage debt of the U. States R.R. The *Bulletin* hopefully adds:—'This very large amount of suspended debt, however, is not to be regarded as permanently unremunerative to the investors. On the contrary, there is little risk in hazarding the prediction that, within three years, the holders of these securities will be receiving regular interest upon three-fourths of the above aggregate of indebtedness.'—

The Minho's Mails.

The steamer Minho, of the Royal Mail Company's fleet, arrived at Montevideo yesterday morning. We extract the following summary of her news from the *Telegrafo Maritimo*.—

The civil war in Spain continues of a sanguinary character. After capturing Urgel the Carlists pillaged and sacked Calahorda while in retreat before the Republican advance; they then marched on Puizcerda, the inhabitants and troops resisting valiantly. Although reinforced by Saballs's brigade the Carlists were twice repulsed, the women of the town joining in the fight. On the 21st General Tristany who commanded the besiegers summoned the town to surrender, which was refused, and the bombardment recommenced.

Zabal and Moriones still preserve a masterly inactivity at Miranda and Larraga, although Government is doing its utmost to urge on the military operations.

The Minister of Finance has authorised the Municipalities to increase the present taxes on manufactured and other articles 8 per cent. Large reinforcements are being sent to the West Indian possessions of Spain.

Marshal Serrano signed the credentials of the new Spanish Ministers to foreign powers. Rumours of a change of Ministry have been denied by the *Correspondencia*. The Carlists under Don Alfonso and Doña Blanca took Onda and Alcorta on the 26th.

The Queen of England and Imperial Prince and Princess of Germany with their family are at Osborne.

Russia is organizing Schools in her Central Asian possessions. The refusal of the Czar to recognize Spain is not looked on as showing hostility to that power, but disapproval of the policy of Germany. Paris telegrams report that it is considered in Spain as a blow against the spirit of domination of Bismarck, the more so as Russia is not pleased at Germany taking the initiative on the Spanish question without informing the Czar, against the spirit of the agreement between the three Emperors, that all great European matters were to be discussed between them before any action was taken.

The industrial and religious crises in Germany are as bad as ever. The emigration from Prussia, principally Berlin and the eastern provinces, is increasing greatly. All go to America, although the Government press teems with accounts of the misfortunes of emigrants who had to return to their country.

The Civil Marriage Law was to be taken up in Autumn by the Federal Council. The Emperor William was to go to Kiel on the 16th September to preside at the launch of the ironclad Frederick the Great. Prince Frederick Charles of Prussia has sent a magnificent sabre to Prince Nicholas of Montenegro, by his Aide-de-Camp Baron Korff. A man with a dagger in his possession had been arrested near Bismarck's home at Kissengen; he was seen to be constantly prowling about the premises. Prince Hohenloe, German Ambassador at Paris, was to return to his post at the end of August.

The escape of Bazaine is still warmly discussed in France. The question of asking for his extradition is debated, but the general impression is that France has no right to ask it.

Marshal MacMahon has gone to Trouville with his family.

MONTEVIDEAN LETTER.

(*From Our Own Correspondent.*)

Sept. 22.

To-day has been one of the dullest we have had during the month, and the only liveliness visible has been on the Bolsa, where speculators are beginning to raise their heads, as you may note by the amount of transactions at foot. Deuda Interna has gone into the shade completely since other shares have come to light; knowing parties say that this debt is only used for speculating when there is nothing else for brokers to handle; and, according to what we have seen during the last few days, it appears to be so. The amounts done in different shares have been:

Progreso Oriental.
80 shares at 44 cash.
10 do 44½ do.
40 do 45 do.
200 do 48 disposable for buyer to the end of the year.
200 do 49 do do do.
10 do 42 cash.
Sociedad de la Playa.
200 shares at 15 cash.
Deuda Interna.
60,000 at 63 for end month.
Compañia Inmobilaria.
100 shares at 65½ end October.
100 do 65 do.
10 do 60 cash.
Fomento Montevideano.
100 shares 25½ end Oct.
100 do 23 cash.
250 do 23½ end Oct.
Fomento Territorial.
20 shares 90 cash.
1500 do 85 do.
20 do 88 do.
50 do 90 do.

As you perceive, there has been quite a variety in the speculations. Progreso Oriental shares, which yesterday were worth $38, could hardly be got to-day at $44 to $45, and I would not be at all surprised to see them at $60 in a couple of days, that is, if one is able to judge from the nods and signs which the wise ones indulge in. Sociedad de la Playa shares are also steadily rising, and the prices paid to-day are for the new ones, two of which equal one old share—at this rate, the old shares are worth to-day 14 per cent prem. Fomento Territorial shares are again looking up: these are the ones that rose to $170 in March last year, and then, owing to the crisis and crash which then happened, they were never more heard of, and people thought they had gone, never to return; but here we have them up again, not much the worse for their sudden eclipse.

In exchange nothing has been done at all, and rate still remains at 50½d. this rate seems determined to remain till doomsday:—

The Rio Uruguay arrived to-day from yours and the Uruguay, with 95 passengers and the following specie to:—

Jose Pallares	$950 79
M. M. Gonzalez	300
M. Corradi	73 10
L. Bonomi	546 87
Total	$1870 76

The American Bark 'Sierra Nevada' a brand new vessel of 1672 tons and loaded with coal from Liverpool en route for California, was burnt through spontaneous combustion on the 18th August; the Captain and crew were saved by the Brig Frank Steward and landed at Pernambuco; this is third new vessel which has been burnt lately; the "Sierra Nevada" was also on her first voyage.

The newspapers have got some long articles on the question between Contador General Mr. Villalva and Don Fernando Torres' ex-Minister of Finance during General Batlles government; it appears from the documents published that Mr. Torres, during his ministry made use of the public monies without exactly defining their destination, a proceeding that the Contador General could not overlook with equanimity, and the consequence is that they are now accusing each other through the medium of the press.

Murders and robberies are still the order of the day, and in spite of so many assassins having been condemned, not one has yet been shot, the Cabildo is full of criminals of the blackest dye, who are awaiting their trial.

Great preparations are being made for the concert to be given to-morrow night at the Club Libertad; the attendance of the fair sex promises to be numerous and magnificent.

EDITOR'S TABLE.

On the back page of this issue will be found two interesting reports, those of the British Clerks' Association and the Thespian Society for its last performance. Some ugly and inveterate grumblers express an opinion that the Thespians ought to have netted a larger amount for the Hospitals. This is most unjust to our young friends. Considering the meat crisis, the weather, the absence of lady performers, the heavy expenses of the theatre etc., we look upon the pecuniary result as alike creditable to the Thespians and the British community, and we feel certain that the public and the Hospital trustees will alike endorse our opinion.

The Pacific steamer Corcovado arrived at Montevideo yesterday, bringing two days later telegrams from Europe via Rio. Things look very serious indeed, and it seems most improbable that the autumn will pass without a convulsion of some kind. Germany is said to have sent another menacing note to France respecting aid given to the Carlists over the Pyrenees. This, and the fact of one of her war-ships having been fired on by the Carlists and letting fly at them in return, would point to probable vigorous interference by the Empire in the affairs of Spain at no distant day. The Schleswig and Asiatic questions also look bad; in fact, wherever the eye turns in Europe the political horizon has a miserably cloudy appearance.

The St. Patrick's Society holds an important meeting to-day. Dr. Lopez will attend and explain to the meeting the various interviews he has had with the Governor on the subject of the petition of the Society for adequate protection for life and property in the camp. The appeal has not been made in vain, as we perceive by the morning papers that Governor Barros has presented to the Legislature a Bill for creating a Camp Police. His Excellency is determined that the men who have built up the prosperity of the Plate through the foundation of her gigantic wool industry shall not be driven to other lands by hordes of murderers and robbers of the worst dye.

Quite a lot of River Plate people may be expected back from European tours before Christmas Day. Mr. Crabtree and family we hear, are on board, the Minho. Mr. and Mrs. Forrester, Mrs. Newman, Mr. and Mrs. Tucker, Mr. and Mrs. Crowther, Mrs. Bruce, Mr. and Mrs. Von Eicken, Mr. Bracht and Mr. F. Mallmann, are all coming in the Boyne next month, and Mr. Cowper, the new Consul, in the Douro in October. It strikes us as a remarkable and melancholy sign of the times that only once in a way, and now and then at huge intervals, is the name of an editor to be found in the long lists of European tourists. Wool men, bankers, merchants, brokers, railway men, engineers, estancieros, almaceneros, doctors, fiddlers, financial agents and farmers, nay even successful shoe blacks, can afford to travel; but pens, ink, paper and hard work from morn till dewy eve are the only capital out of which the cost of a trip to Europe cannot be squeezed by any mortal process. Well, such is life, and a miserably hard life too.

A young subscriber, who looks as if he is on the look out for a wife, kindly informed us yesterday that the old custom of throwing rice after a couple setting out on their honeymoon tour signifies a wish that they may enjoy plenty during their partnership for better or worse. This is worth knowing. Nevertheless, we'd have far more, or at least quite as much, faith in a volley of old STANDARDS, after our honeymoon coach, as in all the rice in Batavia.

The weather cleared up splendidly yesterday; the STANDARD barometer rose like a balloon, and it really looks as if the Rain has gone. The Clerk of the Weather be praised.

According to the law of the land to day is a strict National holiday, it being by Government decree the feast of the National Flag. The difficulty with us is that we are "Under Two Flags", and yet our energies never flag, nor can we be so stony hearted as to refuse our subscribers a paper to-morrow. The matter however is not unattended with risk; but it would be a flagrant exercise of a little brief authority on the part of the Government to fine us for working on a National Flag holiday. On the pavement before our office door yesterday there was intense excitement about this *flag-rant* holiday; men were petrified by the statement that there would be no STANDARD to-morrow, and flag or no flag, to rescue our kind subscribers from a species of mental lapidification, or moral petrifaction, we publish to-morrow, true to our editorial flag.

Yesterday we saw an unfortunate peon in Calle Piedad staggering under a bouquet of a ton weight and consisting of 250 camelias. It came from Mr. Perez del Cerro's quinta at Belgrano, and was for the concert at the Coliseum in the evening. If Flores were turned inside out it could not supply such a gorgeous bouquet.

A subscriber reminds us that in sketching an Argentine breakfast table in our leader of yesterday we forgot the eggs. That's a fact. Most of those we consume are imported from the Banda Oriental and even Europe, and the few laid in the coun-

try are from Cochin China and Dorking hens; another rap on the nob for lazy native industry. By the way, we hear there will soon be a fall in the price of high-heeled boots, when Jonas & Co.'s factory gets into full swing, and runs the exorbitant and worthless Parisian "understandings" out of the field. For all our importing of high-priced French cobbler work, who ever sees a decently made pair of boots on man, woman, or child in B. Ayres? There is not a city in the world more ungracefully shod. London and Parisian 'swells' and 'belles' would turn up their noses at the crooked, clumsy, high-heeled, ready made abominations worn here as the pink of a fashionable 'chaussure'. We look to Messrs. Jonas to change all this and save the feet of the Argentine race from distortion. We will then have six native industries firmly established:—wool, hides, tallow, boots, bones and cold water—a round half dozen. Not bad for a start.

James Grant Wilson, in his 'Sketches of Illustrious Soldiers', gives an anecdote of Frederick the Great which may be new to some readers. The King once sent to an aid-de-camp, Colonel Malachowki a small portfolio, bound like a book, and containing five hundred crowns. Meeting the officer afterwards, he asked him how he liked the new work. "Excessively, sire, I read it with such interest that I await the second volume with impatience." In due time the second volume came, inscribed, "This work is complete in two volumes."

Horrid news! Twenty tons of preserved beef and tongues, sent to England from the River Plate by the Pacific steamer Chimborazo, were seized and destroyed by the sanitary authorities of Birkenhead lately as being in a most dangerous state of decomposition. We dropped a tear for the preserved beef men when we read this truly melancholy intelligence. We hope it won't interfere with the appearance of the new *Montevidean Times*.

We feel great pleasure in saluting our respected friend Mr. Postage-stamp Hibbert on his return to the Plate. He looks as blooming as Boston air and a huge appetite could make him.

We inadvertently placed the prices for Tertulias for the Black Diamonds Soiree at $50 m|c. It should be 20 m|c and we hasten to correct the error. A glance at the Diamonds' programme does one's heart good. Songs, dances, 'a wet lunch' a military sketch, a farce and a Carolina Turn About make up as amusing a bill of fare as could be offered to the public by any amateurs. Success to the Niggers.

Governor Barry, in presenting his Camp Police Bill to the Chambers, urges it on the consideration of the House for the imperious reason that camp industry is the foundation of our prosperity, and that a single unpunished crime on its inhabitants must tell heavily against us in foreign countries. The Bill is short, merely providing for the raising of four companies of Rural Police, of 50 men each, under Inspectors. The force seems to us very small; but under energetic and determined officers, with proper hints from head quarters as to how murderers and robbers should be dealt with, 200 resolute men would very soon render the camps of Buenos Ayres safe. We hope there will be no delay in passing the Bill. To put a spur in the head of the Chambers we may mention that we heard yesterday of another atrocious attempt to rob and murder an industrious Gallego named Boquete living on the late Mr. Nugent's estancia near Giles. Owing to the man's vigorous resistance it failed, but the authorities there make no move to hunt down the criminals. Two Bascoes have been murdered at Giles within the last 9 months, but the local authorities never troubled themselves to do anything. We want camp Jueces like Mr. Dorr of Flores. He's the man for our money.

The Chacarita Cemetery is almost played out. All the walks are now being dug up for graves, and the Inspector says that before a month there wont be a square foot available for a last home. It is scandalous that no steps have yet been taken to meet this grave emergency.

The Municipality owes the Consumers Gas Company 77,800 paper dollars for lighting up the Plaza for the May and July fetes. May the Company get paid.

The Rosario papers report meat scarce and dogs plenty. By the simple arithmetical process of "putting two and two together" we smell "dog chops." We had no idea the beefsteak crisis was so bad in Rosario. The excursion trains on the Central Argentine on Sunday last did well enough for a first attempt. One hundred people went to Cañada de Gomez, and many more to nearer stations. Bad accounts of the crops have been received from Cordoba, but in Santa Fe everything looks well. Nevertheless at Tortugas (which is in Cordoba) they expect to reap 15,000 fanegas of wheat.

The *Libertad* says that a telegram has been received from the Cordoba Observatory stating that the rainy weather lately experienced will last for forty days, only nineteen of which have already passed. This is a pleasant prospect, truly.

ON 'CHANGE.

Sept. 23, 1874.

Ounces	400
Soys	122½
Pats	25
Nat. Bonds	77
Cedulas	80½

This was a great day for news on 'Change, and events crushed round so thick and fast that, to simplify the day's history, we give the schedule:

1. Corcovado arrived with hazy political news.
2. National Government took £130,000 exchange.
3. Banks put down rates.
4. Unpleasant financial news from Rio.
5. Great fall in Cedulas.
6. Directors of Mortgage Bank applied to Government to name agent in England.
7. Private banks put down rate of exchange.
8. Disagreeable dispute about to-morrow being a holiday or not, which checked business.
9. Chambers occupied all day giving Mr. Preserved Beef Silveyra a premium for his system.
10. Extraordinary rumors about people leaving for M. Video.
11. Montevidean and Rio Grande telegraph line repaired.
12. New project to shut up Mortgage Bank in toto.

The dispute as to to-morrow being a holiday or not gave rise to debates that almost culminated in difficulties; the general impression however at 5 o'clock was that as the law is passed, it would be more decorous for all parties to observe it; the day is a new one in Argentine history, and called 'the feast of the National flag.'

To-day there were current the usual rumours about political trouble, but no one now seems to attach any importance to these matters. At an early hour it was said that General Mitre had left for Montevideo; this we are in a position to contradict, as we saw the General walking past the Bolsa between 2 and 3 o'clock looking as well as ever.

At 10 a.m. Mr. Carvalho had his telegrams sent round town to his subscribers, yet on the Bolsa not one word of news; people complain greatly about this, and we certainly think with much reason, the Bolsa ought to make some arrangement to have the news; we had our telegrams early, but owing to our special arrangement we cannot publish them before the issue of the paper. The following are our business telegrams; they are important—

Havre, 14th. 2 10 p.m.

Minho entered last night.

Corcovado just entered; sails to-morrow at 10 a.m.

Home Debt 63, end month. Fomento Territorial 81. Large sheepskin sales at 14 cents.

We may add that so far the STANDARD is the only paper in Buenos Ayres that has arranged with the American Agency for the news daily.

There was very deep dejection in the Cedula market to-day, prices fell off fully 1½ per cent. We noticed at a late hour this afternoon a no ed bear buying at 80 for 15th next month. This shows how the wind blows, still the market is harrassed with every species of rumour, scheme, project and plan, meanwhile the stock comes offering very fast; had the heavy bears who sold early in the month not been in such a hurry in buying back, there profits would have been splendid, but under the impress that the stock was oversold they bought back freely at the first drop, and now the idea is the stock has been overbought.

The sales to-day were—

And at these figures market closed.

In Exchange it is announced that the National Government took £130,000 stg., and the two English Banks put down their rates from 49 to 48¾. No takers at these rates.

The Minho's and Corcovado's mails are both to be up in the morning.

At the Provincial Bank to day discounts were freely done, but the applications were not large. Money in the open market ranges for best paper 8 to 9.

The following new branches of the National Bank will be opened to the public on next Monday, with their respective staffs at foot:—

Respecting the complaint about the Captain of the Ville de Santos clearing out from port with but two-thirds cargo, we learn that the shippers are labouring under an error, inasmuch as the vessel took from here a very full cargo, viz—

18,018 dry hides
6,000 salted do.
420 bales
930 pipes tallow
100,000 horns

And, in fact, when the steamer sailed there was no more spare room in her than what the Captain was obliged to leave for Rio for cargo already engaged there. This, of course clears the Captain.

Congress has voted to Messrs. Risso 25,000 pats. indemnification for loss of Portuna, which, when we consider that the arms which Messrs. Risso took from the rebels amounted to 46,000 was indeed poor compensation enough: half a loaf is better than no bread, Had Risso the Union Jack on his steamer 100,000 pats. would have been nearer the mark.

An English merchant resident at Flores has favored us with the following notes about the rainfall:—From Augt. 13 to Sept. 2nd, 9 in 3 cent; the average annual rain fall is 32 inches in England, the average is 28 inches: in Brazil the average is we believe 62 inches.

This is a very general expression of regret that Dr. Tejedor does not leave for Rio to finally close the Triple Alliance peace treaty, as after such prolonged negotiations by this distinguished Argentine Statesman had at last finally brought matters to a most honorable and amicable conclusion, and it well became him to attach his signature to the treaty before his administration went out of office. Possibly the new Avellaneda administration will name him as Plenipotentiary to proceed to Rio and close up the question.

The German steamer Buenos Ayres took in at Montevideo 1600 bags maize.

We note in the *European Mail* that besides those mentioned as booked Boyne passengers from Southampton are Mr. and Mrs. Van Eiken, and Mr. Bracht; we heard some week ago that Mr. Bracht had got married to a young lady of Darmstadt and had settled down there.

The sale of 35,000 dry hides in Montevideo at 8,25 is reported per *Telegrafo*; also sale of 13,000 qq. jerked beef for Brazil at Punta de Yeguas reserved price, and 10,000 quintals for Havannah at 36½ r's, resold yesterday at 37½.

The fine French steamer Moreno has brought out full cargo and 87 passengers.

At 1 o'clock we received our Corcovado telegram, ahead of all the telegraph agencies &c. in town; we compliment Mr. S. B. O'Gorman on the victory.

The last mail has brought us the rather unpleasant news that some 20 tons of preserved beef and tongues shipped from Montevideo had to be thrown overboard, having gone bad on the voyage, the credit out here against the meat, we understand, is 4d. per pound; for drawing purposes therefore the mischief amounts to about £746.

The market opened to-day with great novelty. Nothing else was talked of this morning on the Bolsa save the new project to shut up the Mortgage Bank in toto, open a small office in the Provincial Bank for the payment of the coupons and collection of interest, and the Government to present to the commerce of Buenos Ayres the splendid new Mortgage Bank building as and for a new Bolsa, or merchants' exchange. The scheme is beyond question the best that has as yet been hit on, for it cuts the Gordian Hypothecary knot at once, gives good value to the Cedulas, and frees the market of an institution that now since the 25 per cent rule came in force is literally doing nothing, and yet usurps the market room we require for foreign capital. The one per cent. commission paid by mortgagors will amply secure the Government from all possible loss. The Province of Buenos Ayres should on the closing up of the Bank acknowledge all the Cedulas at present out as a State debt, and with the Provincial Government guarantee, and the impossibility of any further emission, Cedulas will rise at once to par, without the bothersome necessity of sending a special agent to London to launch there, and perhaps wind up with a 'fiasco.' That there is sound, common sense in the project admits of no manner of doubt, since it is notorious that the bank for the last few months has done nothing, and the meeting of the Directors is but a technical farce, since the worthy directors have little to occupy themselves with beyond repeating the surpassing lamentations of Jeremiah. Here we have the whole remedy in a nut-shell. The Bank has had its day; to go on loading 50 per cent. is considered impossible, and yet to carry on business giving but 25 per cent comes to be about 18 per cent or less. Let the Cedulas be acknowledged a Provincial debt, and hand over to the merchants of Buenos Ayres the new Hypothecary Bank building for a new Bolsa and Chamber of Commerce. We vote for the project and believe every merchant in town will vote with us.

A very neat pamphlet, containing the petition to Congress by the directors of the San Fernando Wharf Company, and also a series of very ably written articles that appeared in the *Republica*, has been sent round. We know of no scheme that is backed up with so many sound reasons and cogent figures as this San Fernando Wharf scheme, yet strange to say we hear very little of it in the Congress debates. The canalization of the Capitan Arroyo is, perhaps, one of the most essential reliefs Congress could afford to our coast-wise traffic, and the sooner the scheme is carried out the better; in fact, it is a wonder that with such excellent experience as that of President Sarmiento in this Capitan Arroyo, the National Executive has not pushed the matter through so as to render effective aid to our struggling river traffic.

Mr. Crabtree, manager of the Northern Railway, may be expected to-morrow, per Minho. The Northern Railway, at its last general meeting, presented Mr. Crabtree with a vote of thanks for his services as manager; and a present of one thousand pounds over and above his salary.

It is really a most significant fact, that whilst from the coast of Chile and Peru a foreign vessel never leaves for Europe or the States in ballast according to the port returns of Buenos Ayres for 1872, no less than 210 vessels with 69,707 tons burthen left that year in ballast. This shows the enormous exceptional of our imports that year over our exports.

It is pleasant at last to see something going from Paraguay to Europe in the shape of an export. The Lacydon, that cleared yesterday, took 200 bales of Paraguayan tobacco; we wonder that has become of all the splendid Paraguayan timbers about which we used to hear so much in the time of Lopez. There was a time when the Buenos Ayres carpenters would work up other cedar save Paraguayan, and we were given to suppose that when Lopez would be overthrown we should have our markets supplied with abundance of the best Paraguayan woods, but it is now nearly 5 years since Lopez's overthrow, and Paraguayan cedar is scarcer than when the Field Marshal ruled at Asuncion.

The British barque Favorita, that cleared from this port for Queenstown, Ireland, and orders, with a cargo of bone ash, has put into Bahia in distress, where she has been condemned, and we suppose cargo sold for account of underwriters.

Congress has voted for the creation of a Custom House in Cordova, and a wag proposes that it should also proclaim it a port of entry and discharge, and that vessels loading Cordova produce at Rosario that comes down by rail should be cleared by the Cordova Custom House as if sailing from the port of Cordova.

The weather and shocking state of the roads in the suburbs and camp is again beginning to tell on our meat markets. This morning capones were sold at the Corrales at 60 and 62 m|c. each, which shows a rise of 10 m|c. within the last few days. Good fat fresh beef is also scarce, and 'carne gorda y arriba' sells at fancy prices, but is rarely to be had in the market.

A new Joint-stock Saladero Co. at Goya is started; capital 100,000 pats., in shares of 4,000 pats. each. Strange to say, in such an expensive and important an industry as the saladero, we have so few worked by joint-stock companies, and the brokers seem to think that a saladero to pay must be worked by the owner himself. Years ago we recollect a saladero in Barracas worked by a joint-stock company of Italian peones, and we believe with good results. It is the general opinion that next year we shall have the Barracas saladeros all at work again, but 'man proposes'——

The French packet Mendoza sails from this port on 26th (Saturday), and the R. M. steamer Minho on 29th. Both packets will probably take heavy mails, but as for specie, the season for that is passed, with banks drawing at 49. It is the opinion of many that exchange is now permanently on the rise.

B. AYRES BRITISH CLERKS PROVIDENT ASSOCIATION.

The annual General Meeting of the above was held last Thursday evening, the 17th inst., when, exclusive of the committee 7 only, out of 75 members, attended.

The chair was taken at 7.30 p m. by Mr. W K Brydges, who after stating the objects of the meeting, and regret at such a small attendance, called on the Secretary to read the—

Report of the Committee for the half-year ending 31st August 1874.

At the close of the 13th year of the existence of the association the committee is again called to lay before you the accounts and statement of its administration during the past 6 months, and though you have not passed scathless through the late depression in commercial circles, it may be a source of congratulation that matters have not been worse.

With much regret the committee for the first time since the foundation of the Society is compelled to advise a nondeclaration of interest, as, in the absence of any further security, an amount of $28,000 m/c must in their opinion, in the meantime, be retained.

The following table will shew how the shares are apportioned, the number of shareholders being 82 holding between them 604 shares.

2	members	holders each	1.....	2
11	do.	do.	2.....	22
3	do.	do.	3.....	9
6	do.	do.	4.....	24

23	do.	do.	10.....	230
4	do.	do.	12.....	48
2	do.	do.	15.....	30
2	do.	do.	20.....	40
2	do.	do.	25.....	50
82	do.	do.	shares	604

Shewing a decrease of 2 members and 118 shares, against last half-year. A considerable decrease in the capital will also be observed of about 100,000 m/c, but this is accounted for by the retirement of shareholders, as intimated in the previous report; one alone having withdrawn over $87,000.

The following is a copy of the balance sheet, duly audited in accordance with Rule VIII—

Dr.	
Cash account	$ 215
Bills receivable account	431,284
London Bank account	23,055
Public Securities account	105,622
Members Loan account	
	$ 563,176 m/c

Cr.	
Share Ledger account	$ 534,885
Interest account	28,291
	$ 563,176 m/c

In accordance with the sanction obtained at the last half-yearly meeting, a new account—Public Securities Account—has been opened, this investment will, the committee feels sure meet with your approbation, it considerably lessens the work of the Treasurer and though probably the gain in interest will not be so large, the security is greater and tends much to lessen the responsibility which the committee has to bear.

A new issue of amended rules and regulations has been made, which the committee will be glad to see extensively circulated. It is still but too evident that the peculiar aim of the Association has never been properly attained that, of inducing "a spirit of saving", and the laying by something for future emergencies—amongst the younger portion of the British clerks.

It remains with you to-night to elect a new committee for the ensuing years it will be necessary to bear in mind that according to Rule VII two (2) members at least of the out going committee must be re-elected.

In conclusion the committee availing of the publicity that will be given to this report, again calls the attention of the younger members of the community to the advantages offered by the Association, regretting that so little disposition is shewn to profit thereby.

W. K. Brydges,
Vice Pres.
J. Jordan Traer,
Sec.

B. Ayres, Sept. 15th, 1874.

The foregoing report on the motion of Mr. L. Woodhouse, seconded by Mr. Short, was duly adopted.

The thanks of the members were warmly accorded to the retiring committee for their anxious and arduous services during the past six months.

The following votes of thanks were proposed and carried unanimously:—

To the Committee of the Gymnasium for the use of the rooms.

Proposed by Mr. C. Cowell; seconded by Mr. Begg.

To the gentlemen allowing the use of room for the monthly committee meetings and other business of the association.

Proposed by Mr. Traer; seconded by Mr. Short.

To the Editors of the STANDARD for their kindness in inserting the reports, and the continued interest expressed from time to time for the advancement of the Association.

Proposed by Mr. W. K. Brydges; seconded by Mr. J. P. Browne.

After this the meeting proceeded to the election of officers for the ensuing year, resulting in a majority for the following gentlemen:—

President—Mr. C. Cowell.

Committee—Messrs. Brydges, T. Hogg, J. P. Browne, R. Walkinshaw, F. Short, J. J. Traer.

Suplentes—Messrs. H. C. Morgan and T. S. Hooper.

Auditors—Messrs. James Hogg and H. W. Locoore.

Suplentes—Messrs. W. Lind and T. Aitken.

This finished the business of the general meeting.

On its adjournment a committee meeting was held and the following appointments made and ratified:—

Vice-President, Mr. T. Hogg.
Treasurer, Mr. T. Short.
Secretary, Mr. J. J. Traer.

It was determined, as far as possible, to enforce Rules X and XI for the payment of subscriptions at the time and place specified.

There was nothing further of interest.

THESPIAN ENTERTAINMENT.

B. Ayres, Sept. 21, 1874.

To the Editors of the STANDARD,

Gentlemen:

As doubtless the Hospital Committees and the public generally are anxious to be informed of the result of our late performance, we shall feel obliged if you will allow this letter, embodying a financial statement, to appear in the columns of your widely circulated journal.

It will be perhaps wondered at, that, although the charges for boxes, tertulias &c. for last Monday's Entertainment were higher than those exacted at our first appearance, we are not on this occasion able to show so large a surplus to be handed over in charity, but this arises from the fact that with the exception of the boxes only about two-thirds of the available seats were taken.

The surfeit of amateur performances to which the British community has recently been treated, no doubt, is the cause of this comparatively small attendance; but, taking all things into consideration, we think we were highly favored in being enabled to draw so many of our old admirers to the Alegria on Monday.

We have had almost insurmountable difficulties to contend against in organising the entertainment, the chief stumbling-block being the want of lady performers; but, being compromised to appear in aid of the Hospitals, we put our shoulders to the wheel and did our best.

Referring you to the figures stated below, and thanking you for your never-ceasing sympathy and liberal courtesy,

We remain, gentlemen,

SAVINGS BANK
BANK MAUA AND CO
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest; thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following he noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1872

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM,
E. DE LAS CARRERAS.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
